**--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

THE REPLY FILED 11 August 2010 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires \_\_\_\_\_ months from the mailing date of the final rejection.  
 b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on \_\_\_\_\_. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

#### AMENDMENTS

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because

Continuation of 11. does NOT place the application in condition for allowance because: Applicants arguments are not persuasive for at least the reason that applicants have chosen to use open claim language and more may be present in the prior art and still anticipate and/or obviate the instant claims. With regards to the "consisting essentially of" said transitional phrase does not exclude other elements in claim 2 because as applicants have pointed out the instant specification states in paragraph [0031] that impurities may be present. Furthermore applicants point out that by taking the lower end of the ranges in the claims there is still a gap in the amount of material in the alloy and something must fill that gap in order for the alloy to be complete at 100 atomic% which requires other materials besides those recited in the claims. Therefore because the instant specification allows for other materials to be present besides those recited in the instant claims the transitional phrase "consisting essentially of" is understood to be "comprising" because more is in fact present in the composition. Applicants also provide a machine translation of JP 05-267299 and state that it does not read on the claims. However it is quite clear in claim 3 and paragraphs [0008] & [0015] that the ranges when converted to atomic percent have overlapping portions with the instant claims. Therefore because applicants have chosen to use open claim language the Fujii reference reads on the claims as recited. It is noted that the English abstract relied upon by the Examiner was provided by the database STN and scanned into the file wrapper on 6/30/10, it is search result 18 of 34 found on pages 39 and 40, which has been truncated to provide to applicants with this advisory action to only provide the pertinent information.
